

Quick'n easy Word and PowerPoint templates

Readymade design from Omnidocs

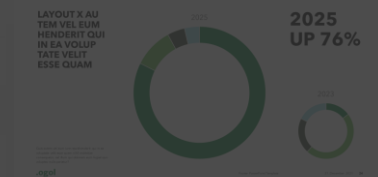

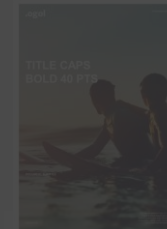

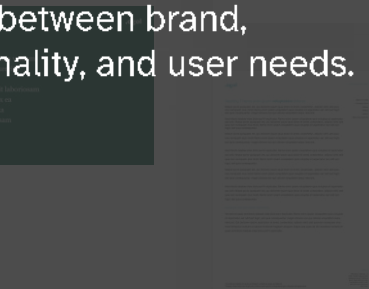

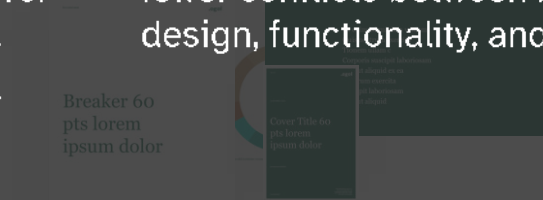

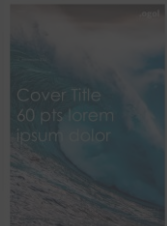

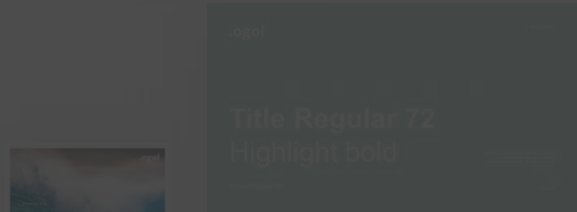

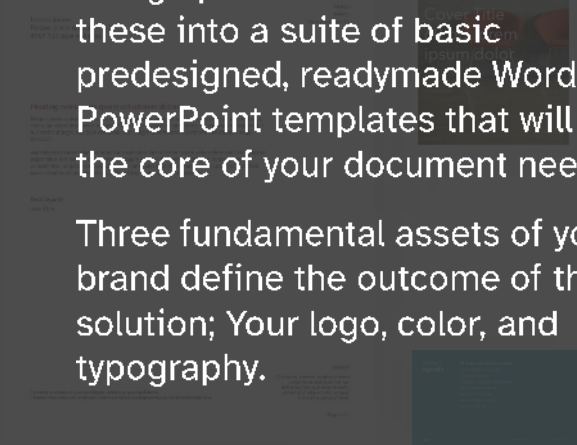

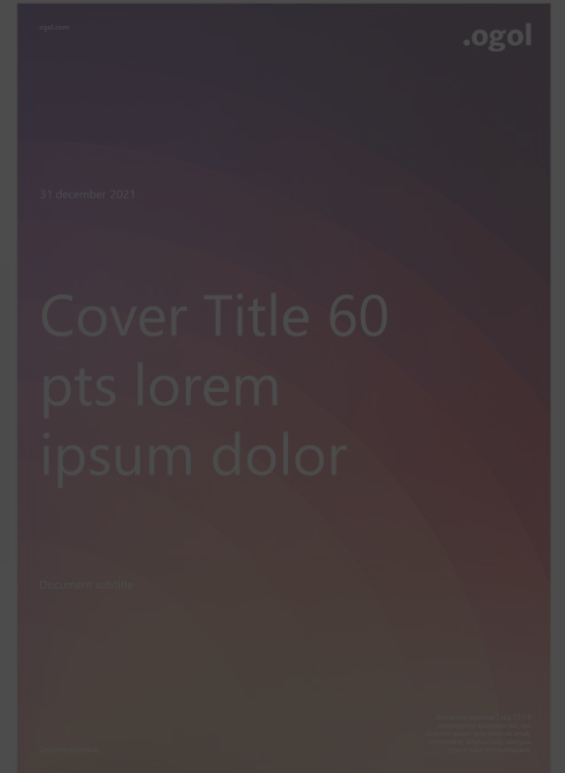

Ready-to-use templates

Based on our solid experience designing and implementing thousands of documents, we have gathered all our best document design practices and condensed these into a suite of basic predesigned, readymade Word and PowerPoint templates that will cover the core of your document needs.

Three fundamental assets of your brand define the outcome of the solution; Your logo, color, and typography.

Our predesigned solutions help ensure your core brand elements are applied correctly, even by colleagues who are not presentation designers or Microsoft Word experts. Word is challenging - but this solution makes it much more straightforward, with fewer conflicts between brand, design, functionality, and user needs.
